My name is Kim and I am the Director of Program Operations for River City Domestic Violence Center and Family Connections. I first joined this amazing team as the Family Connections Coordinator before moving to this position. I hope to continue advocating for survivors with this agency for years to come.

I graduated from USD in 2019. There I completed my BA and BS in Spanish and Sociology with a Biology minor. I was fortunate enough to study abroad in Spain for some of my schooling. During my time abroad, I learned from many people in all different aspects of life. My time abroad is what sparked my passion of advocating for victims of abuse and walking along side them in their journey.

In my free time I enjoy being outdoors. You can find me at my parents farm playing with my dog and cats. If I'm not outside, you can find me watching Netflix or curled up with a good book.
